

Kingfisher Direct Ltd

Name:	Four Stream Glutton Recycling Station
Height	899mm
Width	610mm
Length	1346mm
Weight	17.46Kg

348 litre recycling station which is suitable for separating up to 2 waste streams, which can be perfect for offices environments.

Multiple different types of lids with differing restrictive opening hole shapes and can be colour coded with iconic sticker images so as to make recycling much easier and avoid contaminations.

Shipped as one whole kit, 2 bases, 4 87 litre slim jim containers, 1 hinged lid and multiple inserts and pictograms.

Comes available with separate colour-coded symbol and word labels for customising the recycling station for the facilities needs.

Has a permanent hot-stamped recycling logo on the front of the bin.

Adds credibility to the building that the bin is based in due to the fact that it shows your drive to be a more efficient and greener company.

Centre hinge allows lid to be opened on either side, which in turn eliminates the need to remove the lid and helps reduce worker strain and reduce trip hazards.

Comes in either blue, green or beige.

Stock Code: RM-1792372
