

Capsule Recycling Unit

Our range of Capsule Pedal Operated Recycling Units are available in a choice of three sizes.

28 Litre

**Product Code:
BSWYCAP28**

42 Litre

**Product Code:
BSWYCAP42**

80 Litre

**Product Code:
BSWYCAP80**

The Capsule pedal operated recycling units have been designed for use in locations with limited amounts of space available. They feature a compact design which makes them suitable for placing in corridors and small offices.

The unit has a white frame, lid and base and is available with a white or silver base. They are manufactured from a combination of aerospace grade ABS plastic and impact and corrosion resistant plastisol. The foot unit is 100% corrosion resistant which makes these units ideal for use in wet rooms.

Features:

- Foot pedal operated
- Integrated handle
- Integrated castors
- Wall protection system
- Non porous surfaces
- Removable body for easy cleaning
- Leak proof tray
- Wet room safe
- Corrosion resistant Plastisol body
- 100% Recyclable
- Fire resistant construction
- High impact strength ABS plastic construction
- Hands free
- Optional artwork available to show waste stream
- Optional soft closing lid available

Dimensions	28 Litre	42 Litre	80 Litre
Height	675mm	570mm	847mm
Width	250mm	466mm	466mm
Depth	355mm	390mm	390mm
Weight	6 kg	8 kg	10 kg

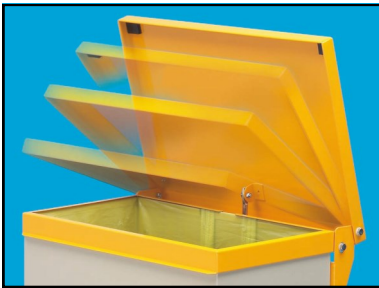

Optional Artwork

A4 (210 x 297mm) vinyl stickers positioned on the front of the body to make your waste stream visible.

Please note vinyl stickers will be a different size when the product is too small to accommodate an A4 sticker.

Optional Extras

Soft Closing Lid

A gas strut is added to the pedal recycling unit which lets the lid close slowly and quietly to minimise noise.

Ideal for hospitals and offices.
