

Animal Face Bin

Hippo

Mouse

Tiger

Ladybird

The Animal Face bins are ideal for a wide variety of locations such as zoos, play grounds, theme parks, schools and nurseries with the fun faces and eye catching colours being a great way of encouraging children to dispose of their litter in the correct manner by capturing their imagination.

The bins are manufactured from tough and durable polyethylene and are ideal for both indoor and outdoor use. Polyethylene is used as it is extremely tough and hard-wearing, UV resistant and will never rust or corrode. Vinyl stickers give the bins their unique appearance and ears are attached to the top of the units.

As standard the bins are supplied without a liner, however an optional galvanised steel liner is available. To empty the bin, the top simply lifts off to allow you to take the liner out.

Height	1016mm
Diameter	457mm
Capacity	90 Litres
Weight	8 kg

Optional Galvanised Steel Liner
