

Slimline Double Iroko Hardwood Bin

Product Code: WYWTS8DS

Based on our Double Iroko Hardwood litter bin, the Slimline version retains the attractive appearance of the larger unit but features a Slimline design to make it ideal for locations with limited space such as paths. The attractive, premium appearance and the natural finish of the bin allow it to blend in with rural surroundings, making it ideal for parks and green spaces.

The unit is constructed using a galvanised steel carcass which is clad in African Iroko hardwood. Iroko is used as it is incredibly stain resistant, tough, durable and hard wearing. A choice of three timber finishes is available, natural, light oak or dark oak. Please note wood is a natural product and will require routine maintenance typically after one year's service.

The bin features two front opening, hinged lockable doors and is supplied with a T key and two galvanised steel liners. The hinge system is a full length pivoted steel rod and is very reliable even after thousands of openings and closures.

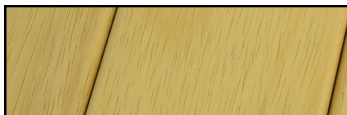

Optional Easyfit Ashtray

The circular Easyfit Ashtray is factory fitted and features a spring loaded butterfly bottom for quick emptying into the liner below.

Available in either gold or silver.

Height	945mm
Width	1000mm
Depth	315mm
Capacity	120 Litres
Weight	80 kg

Timber Finishes

Natural Oak Finish

Light Oak Finish

Dark Oak Finish

Due to wood being a natural product, it may fade or warp over time. All wood products will require routine maintenance, typically after 1 year of use. All timber used in the construction of this product is FSC accredited.
