

Recycled Plastic & Steel Bench

Product Code: WYRPB5

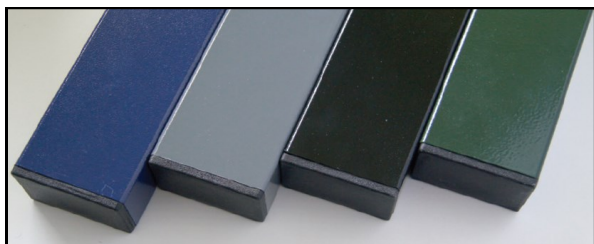

Height	520mm
Length	1800mm
Depth	320mm
Weight	24 kg
Construction Material	Steel & Recycled

This bench features a pre-galvanised fully welded box section steel frame that can be powder coated in a choice of colours. The seating slats are manufactured from environmentally friendly wood effect recycled plastic.

The feet come pre-drilled ready for ground fixing using RAWL bolts or the bench can be supplied with extended legs for concreting directly into the ground.

Steel Frame Colours

The galvanised steel frame is powder coated in one of our standard textured paints free of charge.

If you require a colour that is not among our standard colours, please contact us as more colours are available upon request.
