

Open Top Recycling Bin

Product Code: BSWYCOT3

The Open Top Recycling bin is manufactured from tough and durable polyethylene and is ideal for use in a wide range of locations such as schools, colleges, workplaces, parks, green spaces and on the street.

The bins are available in a wide range of colours and the polymer used is UV stabilised so the colours will not fade when placed outside.

As standard the bin is supplied with no liner, however an optional galvanised steel liner is available.

The bin can be free standing, have a concrete slab inserted in the base or it can be bolted down using the optional set of 4 RAWL bolts.

Colour & Aperture Options

Black

Light Blue

Dark Blue

Red

Grey

Light Green

Dark Green

Orange

Please note the above colours offer an approximation only and should not be used as an exact match

Optional Extras

Galvanised Liner

Add a circular galvanised steel liner to collect the waste and make emptying much easier. Handles on the inside allow the liner to be lifted easily.

RAWL Bolts

Set of 4 RAWL bolts for ground fixing.

A concrete ballast is also available to weight the bin down.

Recycling Artwork

A4 (210 x297mm) artwork positioned on the front of the unit to make the waste stream stand out.
