

# Middlesbrough Steel Recycling Bins

The Middlesbrough recycling bins are our best selling range of recycling bins and they are widely used throughout the United Kingdom. They are a popular choice with Councils and local authorities, all of whom like the durability, usability and customisation offered by the bin. The units can collect a combination of general waste and dedicated recycling waste streams and this makes them the ideal for locating in busy locations such as town and city centres, parks and green spaces.

The Middlesbrough Recycling range is made up of four standard sizes:

## Middlesbrough Dual Litter & Recycling Unit - 160 Litre

**Product Code: MLB160R**

Height: 960mm

Width: 760mm

Depth: 465mm

Weight: 84 kg

## Middlesbrough Dual Litter & Recycling Unit - 224 Litre

**Product Code: MLB224R**

Height: 955mm

Width: 910mm

Depth: 520mm

Weight: 90 kg

## Middlesbrough Triple Recycling Unit - 336 Litre

**Product Code: BS-WY-MLB336R**

Height: 960mm

Width: 1395mm

Depth: 535mm

Weight: 130kg

## Middlesbrough Quad Recycling Unit - 448 Litre

**Product Code: BS-WY-MLB448**

Height: 872mm

Width: 1952mm

Depth: 472mm

Weight: 165 kg

\*Please note the images above show the units with customer specific artwork

The Middlesbrough range of bins feature a 10 year anti-perforation warranty as standard. This guarantees the surface of the bins from rusting through completely.

The bins are fabricated using 2mm galvanised steel with an 8mm galvanised base welded to the walls to make a very strong, rigid and durable container. The whole unit is powder coated in one of our standard colours with the option of adding gold or silver banding available. If you require a colour that is not among our standard colours, please contact us, as more colours are available upon request.

The bins have smooth surfaces as standard and each bin is supplied with a vinyl text sticker located under each aperture to show users the waste streams being collected. The option to upgrade to laser cut text is available and this includes either a gold or silver backing plate. The text is available in both English and Welsh and the aperture will match the waste streams you select.

We can also arrange to have your decals, logo or motifs made for you and applied to your bin. Simply email us with a good quality, clear image and your requirements and we can provide a quotation.

An important feature of the Middlesbrough range of bins is the slam lock fitted as standard to the door. This is a stainless steel lock which is easily opened using a square T key and closes with a push of the door against a spring loaded boss. This is a very simple yet long lasting system. The units are fitted with doors that have full 90 degrees opening and makes the removal and emptying of the liner or liners much easier. The hinge system is a full length pivoted steel rod and is very reliable even after thousands of openings.

The units are supplied with a pre-drilled base and can be securely bolted to the ground using the optional set of 4 RAWL bolts.

## Powder Coated Colours

The Middlesbrough Recycling Bins are powder coated in one of our standard colours free of charge. If you require a colour that is not among our standard colours, please contact us as more colours may be available upon request.

**Black**

**Turquoise**

**Dark Blue**

**Red**

**Orange**

**Light Blue**

**Yellow Green**

**Silver**

**Green**

**Magenta**

**Grey**

We also offer the option of dual colours on the MLB160R and MLB224R Dual Litter & Recycling bins. Half the unit is powder coated in your first colour choice and then this is masked off whilst the second half of the bin is powder coated.

Please call us for prices for dual colours.

Please note these colours offer an approximation only and should not be used as an exact match.

## Lid Options

**Standard Lid**

The standard lid has a slightly kinked raised lid to allow rainwater to run off.

**Slight Peaked Lid**

The slight peaked lid is 65mm high and has been designed with the aim of discouraging anti-social behaviour by not allowing people to sit on top of the bin or place rubbish on the top.

**High Peaked Lid**

The high peaked lid is 120mm high and has been designed with the aim of discouraging anti-social behaviour by not allowing people to sit on top of the bin or place rubbish on the top.

## Text & Artwork Options

Each bin is supplied with a vinyl text sticker located under each aperture to show users the waste streams being collected. The option to upgrade to laser cut text is available and this includes either a gold or silver backing plate.

**LITTER**

185mm x 40mm

**LITTER  
&  
DOG WASTE**

325mm x 95mm

**RECYCLING**

328mm x 40mm

130mm x 105mm

**YSIBWRIEL**

269mm x 40mm

Please note the standard font height is 40mm unless the length of the word exceeds the width of the product, then the font height will be 30mm.

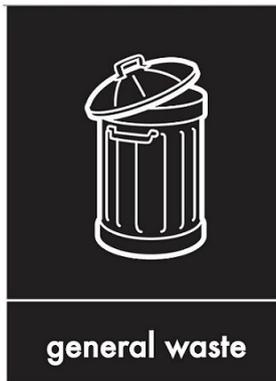

Laser cut text will be segmented as shown above, where a central area needs to be retained, for example the centre of an 'o'.

Bespoke lettering is available upon request. Please contact us to discuss your requirements.

# Optional A4 Artwork

The artwork is an A4 (210 x 297mm) vinyl sticker which can either be stuck directly onto the bin or can be stuck to a Perspex plate which is fixed to the bin. The artwork is designed to make your waste stream visible from afar and stand out.

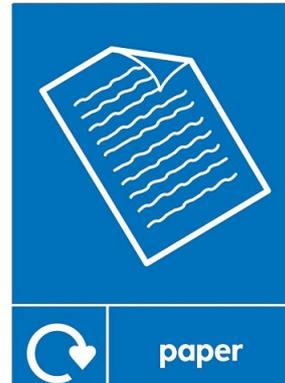

To add the A4 Artwork to your online order all you need to do is search for the product code and add the product to your basket.

**Product Code:**

**Product Code:**  
BSWYPB

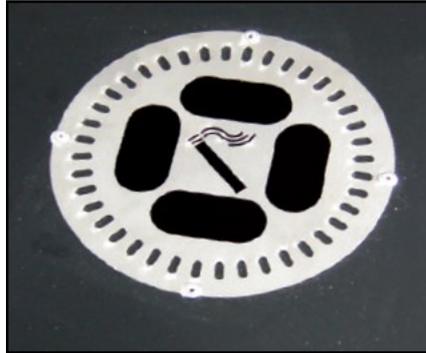

**Product Code:**  
BSWYMG

## Smoking & Gum Options

**Stainless Steel Stubber Plate**

Designed to encourage smokers to use it to stub out their cigarettes and cigars instead of using the bin and leaving unsightly marks on it.

**Easyfit Ashtray**

The circular Easyfit ashtray is factory fitted and features a spring loaded butterfly bottom for quick emptying into the liner below.

**Standard Ashtray**

The Standard ashtray is factory fitted and features a counter-balance emptying system with a recessed drop area for cigarette and cigar butts.

Both ashtray options are available in gold or silver and can be optioned with the stubber plate

**Gum Chute**

The Gum Chute is designed to encourage correct disposal of chewing gum.

Please note the ashtray and gum options are available upon request only for the Middlesbrough Recycling Units.

## Optional Extras

**Anti-Fly Poster Dimples**

Dimples to all sides of the bin to prevent posters being applied.

\*Available upon request only

**Bird Flaps\***

Flaps help to prevent birds and squirrels getting inside the bin.

\*Available upon request only

**Steel Beading\***

Riveted steel beading is available to go around the circumference of the bin. Available in gold or silver.

\*Available upon request only

\*Optional Extras continued.....

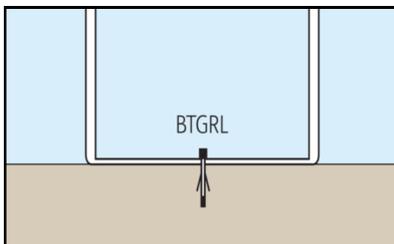

### Advertising Frame\*

Advertising frames can be added to allow posters to be displayed. The artwork is interchangeable by unclipping the sides of the frame and can be done quickly and easily.

Advertising frames are available in A4 or A3 sizes.

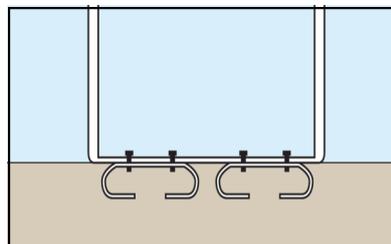

\*Available upon request only

## Ground Fixing Options

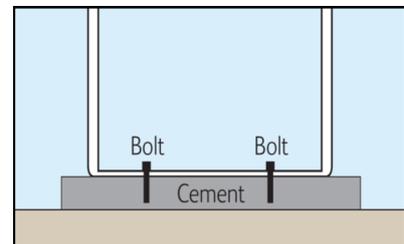

### Set of 4 RAWL Bolts

The Middlesbrough litter bins are supplied with a pre-drilled base allowing secure ground fixing using RAWL bolts.

### Ground Anchor Feet

Ground Anchor Feet enable a bin to be sited into freshly laid concrete. The feet are supplied loose with the bin and bolt to the bottom of a bin. Once the concrete cures the bin is secured in place.

### Concrete Base\*

A concrete slab is either bolted to the base of the bin or fitted inside. This concrete slab weights the bin down and is ideal for areas where ground fixing is not an option.

\*Price varies depending on model of bin. Please contact us to discuss.
