

Lute Cycle Rack

Product Code: WYLUCY

Height	940mm
Length	800mm
Depth	60mm
Weight	17 kg
Construction Material	Galvanised Steel

The Lute cycle rack features a galvanised steel flat bar hoop with a cross bar available powder coated in a choice of colours to create an eye catching appearance.

This stylish cycle rack is ideal for use in schools, colleges, universities, city centres, parks and green spaces and it gives the public a secure location to leave their bike.

The Lute cycle rack has the option of being ground fixed using a fixing plate and RAWL bolts or it can be spike fixed which means the cycle rack is extended by 300mm to allow for fixing directly into the ground with spikes to secure it into concrete.
