

Iroko Hardwood Picnic Table

Product Code: WYHWP5

Height	730mm
Length	1800mm
Depth	1400mm
Weight	120 kg
Construction Material	Steel & Iroko

The Iroko Hardwood Picnic Table features a pre-galvanised fully welded box section steel frame that can be powder coated in a choice of colours. The seat is built to last and is made up of three Iroko hardwood seating slats which can comfortably seat up to 4 people.

The feet come pre-drilled ready for ground fixing using RAWL bolts or the picnic table can be supplied with extended legs for concreting directly into the ground.

Only FSC certified timber is used in the manufacture of this product. This allows the environmental impact of using timber products to be kept at a minimum by only using timber sourced from well managed forests.

Steel Frame Colours

The galvanised steel frame is powder coated in one of our standard textured paints free of charge.

If you require a colour that is not among our standard colours, please contact us as more colours are available upon request.
