

Kingfisher Direct Ltd

Name:	Smokers Station Wall Mounted Cigarette Bin - 300 Litres
Height	318mm
Length	254mm
Width	76mm

The smokers station is an attractive, weather-resistant way to control waste from smokers, and can be manufactured out of either galvanised or stainless steel.

The smokers station has been specifically designed to eliminate the potential fire risk of open top ashtrays, whilst stopping the unhealthy sight of soggy water butts sticking to the tray after raining.

Ideal for outdoor environments as it's weather resistant, and also includes mounting hardware to allow for wall mounting.

The bottom hinge on the front door allows for easy access to the fire-safe galvanised steel liner, whilst the key cam at the top of the door prevents tampering.

Recessed extinguishing screens behind the two cut holes are provided to snuff butts and prevent ash from falling onto the ground.

Stock Code: RM-FGR1012
