positive connection

# **FALL ARREST GALLOWES**

- Designed and fully tested in excess of the requirements of BS EN 795:2012
- 150Kg SWL (man plus tools) throughout its height range
- Height adjustable in 240mm increments from 5460mm to 6900mm above ground level
- 180° multi positional swing jib providing increased positioning directly above working area.
- Compact base allowing access to restricted areas
- Easily moved by forklift or pallet truck
- Robust construction c/w 3-coat offshore paint specification
- Can be dismantled for road and sea transportation
- Ideal for confined space access and work duties
- 2 units can be joined by a horizontal fall arrest wire offering an uninterrupted run for inspection of tanks and CCU's
