

15 Litre Plastic Bucket with Tamper Evident Lid 15BKGTFP

- Meets British Retail Consortium (BRC) Standards to ensure food safety
- Fully recyclable polypropylene reduces landfill waste
- Tamper evident seal helps to aid product and quality control
- Can be used for several different industries (food production and catering, construction, manufacturing and transport)
- Lightweight design makes it easy to carry
- Plain white bucket means stickers and labels can be added without any issue

Dimensions	Metric
Upper Diameter (inside)	290.8mm
Upper Diameter (with flange)	307.5mm
Upper Diameter (with handles)	324.4mm
Bottom Diameter (external)	256.8mm
Height (with standard lid)	316.6mm
Container Weight	480g
Handle Weight (PP)	18g
Lid Weight	105g
Weight Tolerance	+/-5%
Dimension Tolerance	+/-1mm
Nominal Capacity	15 000ml
Total Capacity	17 650ml
Total Usable Capacity	16 500ml

Raw Material / Transport

- Buckets and lids are made from food-grade polypropylene (PP)
- Filling and closing conditions: max-content temperature during filling 95°C. For stacking content temperature should be lower than 45°C. Put no more than 2 warm containers in the stack
- When the outside temperature decreases to 25-30° containers will be more rigid and mechanical parameters allow stacking for the maximal static load
- Load on the lower container:
Static (T< 23°C): < 60kg
Transparent Containers < 48kg
- All materials and dyes used to produce containers or lids designed for the food sector are approved for food contact
- Manufacturer is not responsible for container deformation if stacked with other products
