Dimensions : 500mm x 380mm x 590mm

Mist Pro 360

Key Features

2.5m hose and 7m cable provides nearly 10m operator range plus 3m spray range

Industrial-grade stainless steel housing and connectors

Four wheels for maximum stability and manoeuvrability

Turbulent 360° motion ensures total coverage, quickly and effectively disinfecting areas

Switch motor and pump on at switchboard

Solution placed in removable 7L fluid tank

Press fluid release trigger on handgun

Unique diffuser nozzle creates fluid droplets

Specially-formulated solution 'clings' to surface as active droplets

HIGH PERFORMANCE

SUITABLE FOR EXTENDED USE
High-capacity 7L tank allows extended use

BROAD-SPECTRUM CLEANING ACTION
Kills 99.9% of bacteria and viruses. Specially made for use in fogging machines

UNIQUE NOZZLE DESIGN

SPECIALLY-DESIGNED DIFFUSER NOZZLE
Delivers 360° high-pressure, quick-drying mist

QUICKLY DISINFECT LARGE AREAS
3m spray range for fast, effective solution application

EASE OF USE

OPERATOR ONLY HOLDS NOZZLE
No weight or strain from carrying heavy tank

CHOICE OF NOZZLES
Short and long range trigger option for maximum versatility

Mist Pro 360 System

Includes Mist Pro 360 and Sychem Sanitiser Mist Solution

Sychem Mist Liquid Mist Disinfectant

99.99% effective in inactivating and destroying viruses. Specially made for fogging machines.

A ready-to-use sanitising solution, that eliminates odours and provides prolonged antimicrobial protection on surfaces.

- Enables safe, single step and efficient cleaning and disinfection of surfaces
- For use on all surfaces including upholstery
- Prolonged antimicrobial protection for up to 28 days after application
- Highly effective against bacteria, viruses, spores, mycobacteria and fungi
- Meets EN1276, EN14476, EN1650, EN13704 and EN1348 standards
