

# Kingfisher Direct Ltd

Name:	Executive Cleaning Utility Cart
Height	990mm
Length	970mm
Width	510mm
Construction Material	Polypropylene
Weight Capacity	135kg

The executive cleaning utility cart, which is manufactured from durable and recyclable polyethylene, is an elegant and versatile solution for behind the scenes and frontline tasks such as, waiting the table, collecting glasses, and transporting dirty pots.

Due to the smooth and elegant design the executive utility cart is easy to clean as there are no rough edges.

The ergonomic rounded handles improve manoeuvrability and comfort, whilst the wrap around end panels conceal the carts content.

The rounded bumper is gentle on walls and furniture, reducing scuff marks and the chance of rips in the cloth.

Can accommodate two standard bus boxes on top shelf for increased capacity.

Choice of either silver or black colours for the cart.

Stock Code: RM-FG9T6800
