Aladdin Smokers Station:	
Height	984mm
Length	406mm
Capacity - Litres	16.1

The Aladdin smokers station has been designed to be weather resistant and fire-safe due to its aluminium construction.

The oxygen-restricting design quickly extinguishes cigarettes, whilst the nylon base pads prevent damage to the surface and base.

The stainless steel latch requires no tedious, time consuming alignment to fasten and forms a tight fitting seal.

The nickel plated brass chain helps connect both the top and the base together and helps deter theft.

Stock Code: RM-FGR1639EHGR

Volume: 16 Litres
