

Kingfisher Direct Ltd

Name:	BRUTE 167 Litre Utility Container
Height	800
Length	610
Capacity - Litres	166.5

The BRUTE with venting channels is one of the most important innovations in refuse collection in decades!

Integrated, patent-pending venting channels dramatically reduce the force required to remove a filled can liner by over 50% in comparison to traditional containers. (this figure is based on internal testing)

Improved ProTouch handles, which feature moulded base grips, increases ease of handling whilst moving and emptying the bin.

Can be used with the full line of BRUTE accessories.

Certified to the NSF Standard #2 requirements.

Available in multiple colours.

Stock Code: RM-FG264360
