Specification	
Capacity - Litres	1200
Capacity - Gallons	264
Height - mm	1460
Length - mm	1600
Width – mm	740
Construction Material	Polyethylene
Code	PT1200WBODWT

Description

This water butt holds an impressive 1200 litres which is perfect for collecting and storing large amounts of rainwater for numerous activities. It's suitable for large domestic gardens, commercial premises and applications where large volumes of water can be collected. With its clever design; large storage and minimal footprint are achieved. Manufactured with UV protected Polyethylene making it tough and durable and is available in 3 colours; oak, black or green.

This water butt comes pre-drilled with x2 ¾" holes, one for the tap and the other for the rain diverter kit, both of which are included as standard. The tap can provide easy access for watering cans to be filled or a hose pipe to be connected. The rain diverter kit allows the tank to be filled with the rainwater falling down the drain pipe. Also included with this water butt are 2 secure snap on lids, making the product child friendly.
