## Description

The Burgundy water butt is beautifully modelled on a solid oak barrel.

The highly detailed and realistic finish will fit seamlessly into all sorts of gardens, and the tank will hold a generous 500 Litres of rainwater.

2 3/4" BSP Brass Threaded Ports are available on this water butt, one tap connector and 1 drain down point at the base.

This Water Butt comes with a Kit that includes:

- 3/4" Brass Tap
- Wall Fixing Bracket
- Screws

Can be supplied with the 3P Filter Collector Universal for filling with rainwater from your down pipe.

The typical lead time for this product is 3 - 5 working days.
