

# Timber Fronted Bins

The Timber Fronted range of litter and recycling bins feature a natural, attractive appearance which is ideally suited to parks and green spaces.

The units are available in three sizes; single, double and triple.

**Single Unit**

Product Code: WYRLA5

**Double Unit**

Product Code: WYRLA6

**Triple Unit**

Product Code: WYRLA7

The bins feature a glass fibre composite (GFC) body with either a smooth or textured finish. The textured finish uses PTX textured paint to give a rough finish not too dissimilar to sandpaper and is designed to prevent unwanted graffiti and posters being applied to the bin. The smooth finish uses a smoother pseudo-cast iron finish with only a slight texture and no roughness.

The timber front of the bin is available stained in a choice of light or dark oak and features an integrated galvanised steel liner. The front section of the bin lifts out for easy emptying and is fitted with a budget lock. The single unit features a Tidyman plate as standard.

Only PEFC accredited timber is used in the construction of this bin. This allows the environmental impact of using timber products to be kept at a minimum by only using timber sourced from PEFC accredited sources. PEFC has become the world's largest forest certification umbrella organisation with over 30 independent natural schemes.

|          | Single     | Double     | Triple     |
|----------|------------|------------|------------|
| Height   | 914mm      | 914mm      | 914mm      |
| Width    | 482mm      | 964mm      | 1446mm     |
| Depth    | 432mm      | 432mm      | 432mm      |
| Capacity | 105 Litres | 196 Litres | 294 Litres |
| Weight   | 32.6 kg    | 45 kg      | 67.5 kg    |

# Finishes & Colours

**Textured Finish** - Uses PTX textured paint to give a rough finish not too dissimilar to sand paper and is designed to prevent unwanted graffiti and posters being applied to the bin.

**Smooth Finish** - Uses a smoother pseudo-cast iron finish with only a slight texture and no roughness.

If you require a colour that is not shown above, please contact us as more colours may be available upon request.

Please note the above colours offer an approximation only and not be used as an exact colour match.

## Timber Finishes

The timber front of the bin is stained in either a light or dark oak finish.

Light Oak

Dark Oak

# Aperture Options

## Standard Aperture

A large rectangular aperture for the collection of general waste.

## London Underground Aperture

For the collection of mixed waste streams that includes paper.

## Slot Aperture

For the collection of paper.

## Circular Aperture

For the collection of several different waste streams including cans, plastic bottles and mixed glass.

## Optional Extras

### Self-Closing Flaps

A flap is added to the unit to cover the aperture and this helps keep birds and squirrels out of the bin.

### Handles

Optional handles make emptying the liners easier.

## Ground Fixing Options

### Set of 4 RAWL Bolts

The Middlesbrough litter bins are supplied with a pre-drilled base allowing secure ground fixing using RAWL bolts.

### Ground Anchor Feet

Ground Anchor Feet enable a bin to be sited into freshly laid concrete. The feet are supplied loose with the bin and bolt to the bottom of a bin. Once the concrete cures the bin is secured in place.

### Concrete Base\*

A concrete slab is either bolted to the base of the bin or fitted inside. This concrete slab weights the bin down and is ideal for areas where ground fixing is not an option.

\*Price varies depending on model of bin. Please contact us to discuss.

## Optional Artwork

A4 (210 x 297mm) Perspex plate positioned on the front of the unit to make the waste stream visible from afar.
