

# Never Rust Litter Bin

Product Code: WYNR1

Height	980mm
Width	480mm
Depth	480mm
Capacity	112 Litres
Weight	35 kg

The Never Rust bin is based on the metal 'Barnsley' litter bin and is widely used throughout the United Kingdom and is a popular choice with councils and local authorities. It is especially popular in coastal areas as Glass Fibre Composite (GFC) is unaffected by extreme temperature changes or by salt water so will therefore not corrode when located close to the sea. It is also environmentally friendly with 65% of its construction coming from renewable sources.

The unit features a front opening hinged door fitted with a budget lock as standard with the option to upgrade to a slam lock available. Slam lock is a stainless steel lock which is easily opened using a square T key and closes with a push of the door against a spring loaded boss.

Two large apertures offer excellent usability and make the bin suitable for use in busy locations and a lift out galvanised steel liner makes emptying the bin a quick and simple task. A Tidyman plate is fitted to the front and back of the bin and this is available highlighted in either silver or gold.

## Finishes & Colours

The GFC litter bins are available with a choice of either a textured, smooth or Victoriana finish.

**Textured Finish** - Uses PTX textured paint to give a rough finish not too dissimilar to sand paper and designed to prevent unwanted graffiti and posters being applied to the bin.

**Smooth Finish** - Uses a smoother pseudo-cast iron finish with only a slight texture and no roughness.

**Victoriana Finish** - Uses the smooth finish with only a slight texture and no roughness with the addition of highlighted beading to give a classic Victorian style appearance. The Victoriana finish is a popular choice for heritage sites and town centres.

Please note these colours offer an approximation only and should not be used as an exact match.

## Smoking & Gum Options

**Stainless Steel Stubber Plate**

Designed to encourage smokers to use it to stub out their cigarettes and cigars instead of using the bin and leaving unsightly marks on it.

**Easyfit Ashtray**

The circular Easyfit ashtray is factory fitted and features a spring loaded butterfly bottom for quick emptying into the liner below.

**Standard Ashtray**

The Standard ashtray is factory fitted and features a counter-balance emptying system with a recessed drop area for cigarette and cigar butts.

## Ground Fixing Options

**Set of 4 RAWL Bolts**

The Middlesbrough litter bins are supplied with a pre-drilled base allowing secure ground fixing using RAWL bolts.

**Ground Anchor Feet**

Ground Anchor Feet enable a bin to be sited into freshly laid concrete. The feet are supplied loose with the bin and bolt to the bottom of a bin. Once the concrete cures the bin is secured in place.
