

# Fire Retardant GRC Litter Bin

Product Code: WYRD2

Height	864mm
Width	1270mm
Depth	457mm
Capacity	168 Litres
Weight	184 kg

With a design that dates back to 1968, the GRC litter bins are just as popular today as they were back then. They use alkali-resistant fibres and concrete to provide excellent vandal-resistant properties with a higher degree of fire protection compared to any other litter bin currently available.

The bin has been designed with a narrow profile and features two slide-out lockable doors with attached galvanised liners with plastic sack bracket. As standard the door is fitted with a budget lock with the option to upgrade to a slam lock available. Slam lock is a stainless steel lock which is easily opened using a square T key and closes with a push of the door against a spring-loaded boss. If you wish to upgrade to the slam lock, please select the lock upgrade option above.

The bin features a moulded plate on the front of the bin with 'YOUR LITTER PLEASE' text.

The unit is supplied with a pre-drilled base and can be securely bolted to the ground using the optional set of 4 RAWL bolts. Alternatively, ground anchor feet are available if the bin is to be sited into freshly laid concrete. The feet bolt to the bottom of the bin.

## Finishes & Colours

The GFC litter bins are available with a choice of either a textured, smooth or Victoriana finish and finished in a choice of colours.

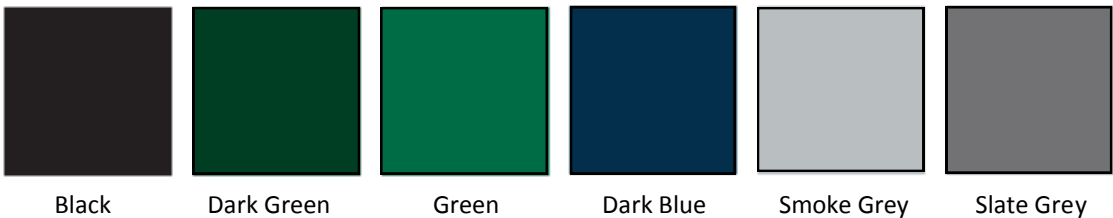

**Textured Finish** - Uses PTX textured paint to give a rough finish not too dissimilar to sand paper and designed to prevent unwanted graffiti and posters being applied to the bin.

**Smooth Finish** - Uses a smoother pseudo-cast iron finish with only a slight texture and no roughness.

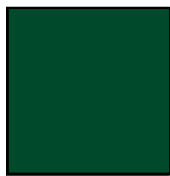

**Victoriana Finish** - Uses the smooth finish with only a slight texture and no roughness with the addition of highlighted beading to give a classic Victorian style appearance. The Victoriana finish is a popular choice for heritage sites and town centres.

### Textured Colours

Finishes & Colours continued....

#### Smooth & Victoriana Colours

British Racing Green

Dark Blue

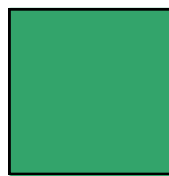

Slate Grey

Black

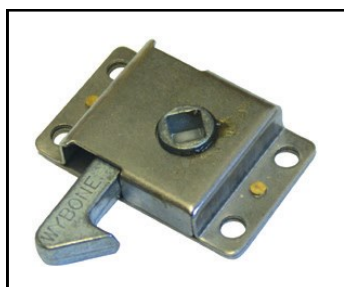

Smoke Grey

Green

Please note these colours offer an approximation only and should not be used as an exact match.

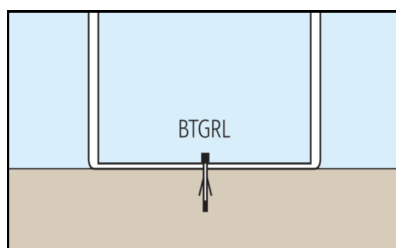

## Optional Extras

#### Slam Lock Upgrade

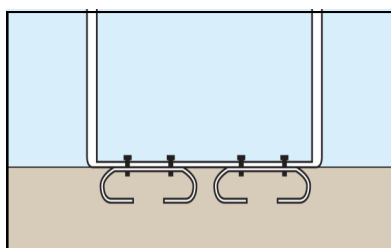

See product description for more information.

## Ground Fixing Options

#### Set of 4 RAWL Bolts

The Middlesbrough litter bins are supplied with a pre-drilled base allowing secure ground fixing using RAWL bolts.

#### Ground Anchor Feet

Ground Anchor Feet enable a bin to be sited into freshly laid concrete. The feet are supplied loose with the bin and bolt to the bottom of a bin. Once the concrete cures the bin is secured in place.
