

Fire Retardant GRC Litter Bin

Product Code: WYRD1

Height	880mm
Width	710mm
Depth	410mm
Capacity	84 Litres
Weight	104 kg

With a design that dates back to 1968, the GRC litter bins are just as popular today as they were back then. They use alkali-resistant fibres and concrete to provide excellent vandal-resistant properties with a higher degree of fire protection compared to any other litter bin currently available.

The bin has been designed with a narrow profile and features a slide-out lockable door with an attached galvanised liner with plastic sack bracket. As standard the door is fitted with a budget lock with the option to upgrade to a slam lock available. Slam lock is a stainless steel lock which is easily opened using a square T key and closes with a push of the door against a spring-loaded boss. If you wish to upgrade to the slam lock, please select the lock upgrade option above.

The bin features two moulded 'LITTER' plates with one on the front and one on the back of the bin.

Finishes & Colours

The GRC litter bins are available with a choice of either a textured, smooth or Victoriana finish and finished in a choice of colours.

Textured Finish - Uses PTX textured paint to give a rough finish not too dissimilar to sand paper and designed to prevent unwanted graffiti and posters being applied to the bin.

Smooth Finish - Uses a smoother pseudo-cast iron finish with only a slight texture and no roughness.

Victoriana Finish - Uses the smooth finish with only a slight texture and no roughness with the addition of highlighted beading to give a classic Victorian style appearance. The Victoriana finish is a popular choice for heritage sites and town centres.

Please note these colours offer an approximation only and should not be used as an exact match.

Optional Extras

Stainless Steel Stubber Plate

Designed to encourage smokers to use it to stub out their cigarettes and cigars instead of using the bin and leaving unsightly marks on it.

Easyfit Ashtray

The circular Easyfit ashtray is factory fitted and features a spring loaded butterfly bottom for quick emptying into the liner below.

Slam Lock Upgrade

See product description for more information.

Ground Fixing Options

Set of 4 RAWL Bolts

The Middlesbrough litter bins are supplied with a pre-drilled base allowing secure ground fixing using RAWL bolts.

Ground Anchor Feet

Ground Anchor Feet enable a bin to be sited into freshly laid concrete. The feet are supplied loose with the bin and bolt to the bottom of a bin. Once the concrete cures the bin is secured in place.
