

# Learning Curve

**Learning Curve**

Product Code: TBLC1

Seating Capacity: 12 Children

**Large Learning Curve**

Product Code: TBLLC

Seating Capacity: 18 Children

**Learning Arena**

Product Code: TBLA

Seating Capacity: 30 Children

The Learning Curve range of products have been specifically designed for use in schools.

Each product is manufactured from recyclable polyethylene making it suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the Learning Curve can be located outside with very little maintenance required. The seat is also UV stabilised and will never stain, rust or corrode.

The black seating slats are available in black only and are manufactured from 100% recycled material.

Each Learning Curve is supplied with ground fixing bolts which are ideal for fixing to hard surfaces. If you intend to locate the Learning Curve on grass, the optional earth fixing kit would be required.
