Table Height	720mm	720mm

The Premier Table and Seat Set is ideal for use in a range of locations such as schools, leisure centres, theme parks, parks and green spaces.

The table and seats are manufactured from recyclable polyethylene, a very tough and durable material meaning the table and seats can be located outside with very little maintenance required. The set is also UV stabilised and will never rust or corrode.

The seating slats and the slats on the table are available in black only and are manufactured from 100% recycled material.

Each set is supplied with ground fixing bolts which can be used for fixing the set to hard surfaces. If you intend to locate the set on grass, the optional earth fixing kit would be required.
