

GRP Open Top Tanks with Forklift Pockets

This open top tank is manufactured from Glass Reinforced Plastic (GRP) making it extremely tough and durable. The tank offers excellent stability, low weight and is highly resistant to corrosion. The addition of forklift pockets allows the container to be moved even when full. .

Features:

- Available in a wide range of capacities
- Leak proof forklift pockets attached using stainless steel coach bolts
- Forklift pockets: 160mm x 70mm
- Smooth interior for easy cleaning
- UV resistant and corrosion resistant
- Chemical resistant
- Available in a choice of colours
- Optional extras available including lids and outlets
