| Height | 410mm | 410mm | 410mm |
| Depth | 560mm | 560mm | 560mm |

The Premier Park Bench is ideal for use in a wide variety of locations such as high streets, schools, theme parks, parks and green spaces.

The bench is manufactured from recyclable polyethylene and can be located outside with very little maintenance required. Polyethylene is a tough and durable material that is UV stabilised and will not rust or corrode and is available in a wide range of stone effect colours.

The seating slats are available in black only and are manufactured from 100% recycled material.

Each bench is supplied with ground fixing bolts which are ideal for fixing to hard surfaces. If you intend to locate the bench on grass, the optional earth fixing kit would be required.
