The Jigsaw table and bench sets are ideal for use in a wide range of locations such as schools, nurseries, leisure centres and playgrounds.

The Jigsaw table and benches are manufactured from recyclable polyethylene making them suitable for outdoor use. Polyethylene is a very tough and durable material meaning the set can be located outside with very little maintenance required. The set is also UV stabilised and will never stain, rust or corrode.

The black seating slats are available in black only and are manufactured from 100% recycled material.

Each set is supplied with ground fixing bolts which are ideal for fixing the bench to hard surfaces. If you intend to locate the bench on grass, the optional earth fixing kit would be required.
