Modular Seating

The Modular seating is a modern and versatile seating unit available in a wide variety of combinations and colour choices.

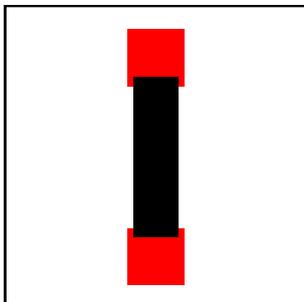

The seating's design has made it a hugely popular choice with schools and councils throughout the United Kingdom and the extreme versatility means limitless combinations of seating arrangements are possible.

The end boxes are available with either flat top boxes or planter boxes and are manufactured from recyclable polyethylene making the seat suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the seat can be located outside with very little maintenance required. The seat is also UV stabilised and will never rust or corrode.

The black seating slats are available in black only and are manufactured from 100% recycled material.
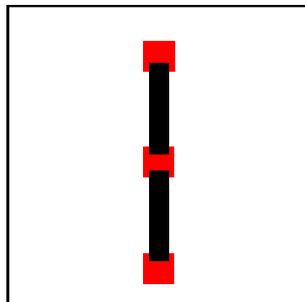

Each seat is supplied with ground fixing bolts which are ideal for fixing to hard surfaces. If you intend to locate the seat on grass, the optional earth fixing kit would be required.
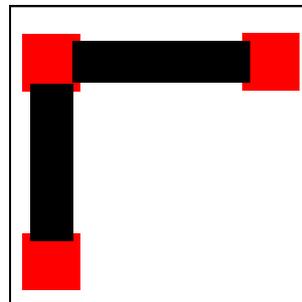

Available Shapes

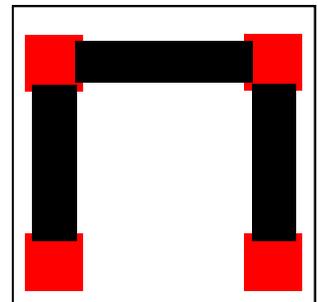

Single Bench
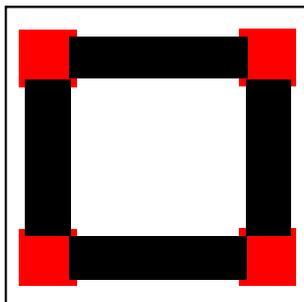

Product Code: TBMSF2

Double Bench

Product Code: TBMSF3

Corner Shaped Bench
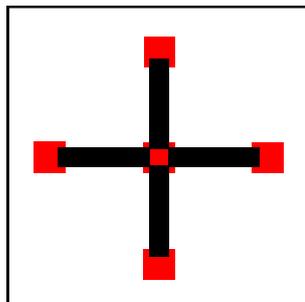

Product Code: TBMSF3C

**U Shaped Bench**

Product Code: TBMSF4U

Square Shaped Bench

Product Code: TBMSF4

**Cross Shaped Bench**

Product Code: TBMSF5

S Shaped Bench
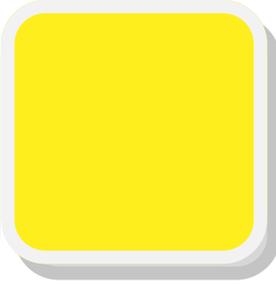

Product Code: TBMSF6

**E Shaped Bench**

Product Code: TBMSF6E
