Height	900mm
Diameter	520mm
Capacity	90 Litres

## Choose your recycling message:

Cans, Plastic, Paper, Bottles, Fruit, Cardboard, Glass, Organic Waste, Aluminium, Batteries or Silver Foil

Our Drinks Can recycling bin is ideal for a wide range of locations such as schools, leisure centres, stadia and theme parks and the bright colours and vinyl graphics are a great way of encouraging the public to dispose of litter in the correct way.

The black board style graphics display the recyclable waste stream that is being collected inside the bin.

The bin has a push top lid and each bin is supplied with a choice of either a galvanised steel or a plastic liner. The top of the bin is lockable and lifts off to allow the liner to be emptied quickly and easily.

This bin is manufactured from recyclable polyethylene making it suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the bin can be located outside with very little maintenance required. The bin is also UV stabilised and will never rust or corrode.

The bin can be free standing or to prevent the bin being moved or stolen, the bin can be securely fixed to the ground using the optional ground fixing bolts.
