

Continental Litter Bin

Product Code: TBCB

Height	950mm
Diameter	390mm
Capacity	52 Litres

The Continental litter bin is ideal for use in a wide range of indoor locations such as schools and offices and also outdoor locations such as parks and green spaces. The bin is available in a wide range of standard and stone effect colours and is supplied with a litter vinyl sticker.

The bin has a large opening on the front to put litter in and each bin is supplied with either a galvanised steel or a plastic liner. The top of the bin is lockable and lifts off to allow the liner to be quickly and easily emptied.

The bin is manufactured from recyclable Polyethylene making it suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the bin can be located outside with very little maintenance required. The bin is also UV stabilised and will never rust or corrode.

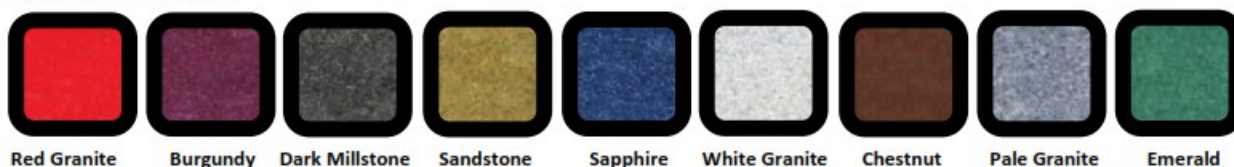

The bin can be free standing or to prevent the bin being moved or stolen, the bin can be securely fixed to the ground using the optional ground fixing bolts.
