

Slimline Classic Litter Bin

Product Code: TBSC

Height	940mm
Diameter	390mm
Capacity	52 Litres

The Slimline Classic litter bin is ideal for a wide range of locations such as schools, theme parks, playgrounds and even places of work. The Slimline Classic bin is available in a wide range of standard and stone effect colours and each bin is supplied with a Tidy vinyl sticker as shown in the image.

The bin has a circular opening on the top of the lid to put litter in and each bin is supplied with either a galvanised steel or a plastic liner. The top of the bin is lockable and lifts off to allow the liner to be quickly and easily emptied.

The bin is manufactured from recyclable polyethylene making it suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the bin can be located outside with very little maintenance required. The bin is also UV stabilised and will never rust or corrode.

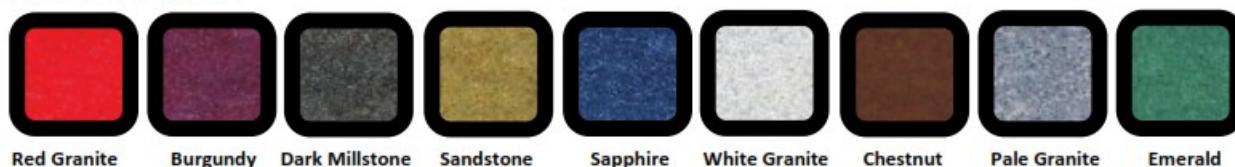

The bin can be free standing or to prevent the bin being moved or stolen, the bin can be securely fixed to the ground using the optional ground fixing bolts.
