

Micro Litter Bin

Product Code: TBMIC

Height	740mm
Diameter	390mm
Capacity	42 Litres

The Micro litter bin is available with a choice of different lid types and is manufactured from recyclable polyethylene making it suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the bin can be located outside with very little maintenance required. The bin is also UV stabilised and will never rust or corrode.

The bins are available in a wide range of standard and stone effect colours and each bin is supplied with tidy logo as standard. Each bin is supplied with either a galvanised steel or a plastic liner.

The bin can be free standing or to prevent the bin being moved or stolen, the bin can be securely fixed to the ground using the optional ground fixing bolts.
