The Popular Twin litter bin is ideal for use in a wide range of indoor locations such as offices, schools and shopping centres and the bright colours and designs are a great way of encouraging people to dispose of litter in the correct way.

The bin has two circular openings in the lids to put litter in and each bin is supplied with two galvanised steel liners. The top of the bin lifts off to allow the liners to be emptied quickly and easily.

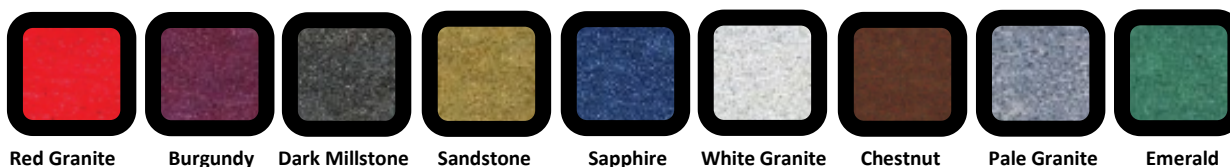

This bin is manufactured from recyclable polyethylene making it suitable for indoor and outdoor use. Polyethylene is a very tough and durable material meaning the bin can be located outside with very little maintenance required. The bin is also UV stabilised and will never rust or corrode.
