

Pickwick Litter Bin

Product Code: MESWPICKWICK

The Pickwick open top litter bin features an attractive, Victorian style appearance and is available in a choice of three standard colours, each with a decorative gold band around the circumference of the bin.

The bin is manufactured from tough and durable, UV resistant Polyethylene and is ideally suited to both indoor and outdoor use as it requires very little maintenance. Each bin is supplied with a choice of either a galvanised metal or plastic liner.

The bin can be securely fixed to the ground using the ground fixing bolts which are supplied as standard with each bin, alternatively the bin can be weighted down using the optional concrete ballast which sits inside the bin.

*Please note the Pickwick litter bin is manufactured to order and as such has a lead time of 10-14 working days.

Standard Colours

Black

Burgundy

Green

Please note the above colours offer an approximation and should not be used as an exact match.

If you require a colour that is not among our standard colours, please contact us as more colours may be available upon request
