

# Box Cycle Animal

The Box Cycle Animal Face recycling bins are a great way to encourage children to dispose of their litter in the correct way. Available as a Lion, a Panther, a Hippo or a Monkey, the bins are ideal for use in schools and nurseries and also venues such as zoo's and theme parks.

The box cycle features a powder coated 2mm galvanised steel base and lid with a transparent body manufactured from Lexan. Lexan is a polycarbonate resin thermoplastic featuring excellent weathering resistance, UV protection and the highest impact strength of any transparent glazing product. The bases are riveted to the bodies and the lid slopes backwards with the aperture on the front of the unit.

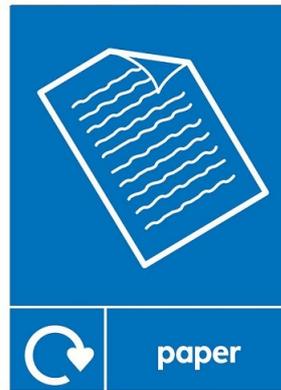

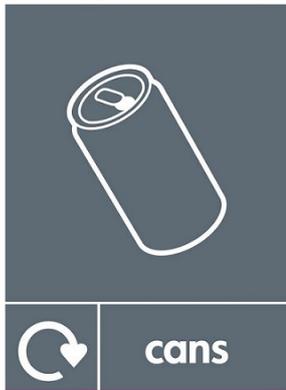

Each of the animal faces has the mouth or nose cut out for the aperture for you to deposit your waste.

<b>Dimensions</b>	<b>60 Litre</b>
<b>Height</b>	910mm
<b>Width</b>	320mm
<b>Depth</b>	320mm
<b>Weight</b>	10 kg

# Artwork

A4 (210 x 297mm) vinyl stickers positioned on the front of the body to make your waste stream visible.
